

Mr. Matthew Bishop

Managing Partner

Mr. Bishop is a leader with 26 years of experience in various manufacturing roles including program, quality, and project management, quality engineering, and manufacturing engineering. Proven performance in driving quality performance improvements and maintaining production continuity. Process development and management of supply chain projects focusing on supplier quality, performance monitoring, and improvement areas. Production and process engineering support for aircraft assembly lines across domestic and internal geographic locations.

Mr. Bishop has experience in high volume firearms, mixed manufacturing components and high value low to moderate volume aerospace industries. Provides direct interface with defense contract management agents (DCMA) and program control office (PCO) in the capacity of program and quality management roles. Companies include Sikorsky Aircraft, PDC International, QuEST Global Engineering (Collins Aerospace), Colt Manufacturing, GKN Aerospace, and Lyons Tool&Die. In his free time Matt spends his time hiking and traveling.
